## **Dutch – Hungarian Health Policy Students’ Day**

**Corvinus University of Budapest**  
**April 28, 2015, Room C202, 13:40:16:30**  
Budapest, Közraktár u. 4-6., 1<sup>st</sup> floor<sup>1</sup>

**Background:** The event is organized on the occasion of the visitation of an 18-member student group together with academic staff from The Institute of Health Policy & Management (iBMG), Erasmus University of Rotterdam to Corvinus University of Budapest. The programme builds upon the two decade-long bilateral relationship between the two institutions that created the framework for a variety of common research projects, conferences, seminars, and other academic events. In the last few years, fruitful collaboration of the two institutions across multiple fields of health economics and policy not only resulted in several co-authored publications but as well supported knowledge-sharing and cross-country learning. In 2013, Werner Brouwer, professor of Health Economics at iBMG Erasmus University of Rotterdam has been awarded to Honorary University Professor at the Corvinus University of Budapest. Furthermore, the Department of Health Economics, BCE has a well-established network with other academic institutions from the Netherlands. In 2012, Niek Klazinga, professor of Social Medicine at University of Amsterdam became a Doctor Honoris Causa at Corvinus University. Besides, several Hungarian professors obtain degrees in the field of health economics from Dutch institutions, like Prof. László Gulácsi who gained a PhD at the University of Amsterdam, Petra Baji assistant professor earn a PhD from University of Maastricht and Prof. Imre Boncz who holds an MSc from Erasmus University of Rotterdam. Number of Corvinus students enjoyed Erasmus fellowships and spent some time at iBMG Rotterdam, some of them received MSc diploma thanks to the collaboration of the two institutions.

The ‘Dutch – Hungarian Health Policy Day’ promises to strengthen the academic relationships between Hungary and the Netherlands, and as well enhances mutual learning.
